

Clarinet reeds

V•12 Bb clarinet reeds are manufactured from cane tubes with the same diameter as cane used for alto saxophone reeds. As a result, they have a thicker heel and are cut on a longer palette with a slightly thicker tip than the Traditional. The longer palette means that more of the reed is vibrating, resulting in a deeper, richer sound. The thicker tip gives body to the attack and also increases the longevity of the reed.

The introduction of the # **3½+** strength allows a smaller and more specific gradation, resulting in reeds that are more consistent within the same strength.

The **V•12** line is expanding with the addition of **Eb and Bass clarinet** reeds, which offer a warm, rich and powerful sound.

	2½	3	3½	3½+	4	4½	5	5+
Bb X 10	CR1925	CR193	CR1935	CR1935+	CR194	CR1945	CR195	CR196
Bb X 50	CR1925/50	CR193/50	CR1935/50					
Eb X 10	CR6125	CR613	CR6135		CR614	CR6145		
Bass X 5	CR6225	CR623	CR6235		CR624	CR6245
