Quick Start Guide

GO VOCAL
High-Quality Microphone Preamp for Mobile Devices

Getting started

1. Install a 9V battery by sliding off the rear cover.

2. Plug the attached cable into your device’s headphone input or lightning adapter.

3. Plug a pair of headphones into the headphone input.

4. Connect a microphone via XLR cable.

5. Move the Power switch to the ON position. If you have connected a condenser microphone, select the +48V position to supply phantom power. The 48V LED on the front panel will light red.

6. While speaking into the microphone, turn up the GAIN wheel. If your voice distorts when singing or speaking loudly, turn the GAIN control back down a bit.

7. Download your favorite TC Helicon app to begin experimenting with vocal effects.
Specifications

GO VOCAL

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.
