

Signature 10

Highend turntable with single-pivot tonearm

- Mass-loaded belt drive subchassis design
- Magnetically decoupled main platter
- Resonance-optimised alloy With built-in TPE damping
- Inverted main bearing with ceramic ball
- Motor control system for perfect speed stability
- Single-pivot tonearm Signature 10
- Chassis with magnetic decoupling
- High gloss metal surface
- High class finish options: black piano, mahogany, olive

Speed	33, 45 electronic speed change
Motor control system	Precision generator
Platter	10,40 kg TPE damped
Platter puck	405gr
Main bearing	ceramic (ball/plate), magnetically decoupled
Tonearm	10"; single-pivot, alu (SME headshell)
Effective arm length/overhang	254,8 mm / 16mm
Effective arm mass	15,5 g
Suitable cartridge mass	4 - 10g, several counterweights included
Tonearm cable included	Pro-Ject Connect it 5P-C
Power supply	16Volt DC/1600 mA included
Standby power consumption	< 1 watt
Dimensions	475 x 350 x 188mm (WxHxD)
Weight	22 ,5 kg net

Retail price
4.990,00 €

Audiophile beauty with "state of the art" quality for vinyl lovers!

Signature 10 is a non-compromise highend turntable/arm configuration with a sophisticated concept combining mass-loaded with floating turntable principles. Magnetic feet and TPE-pillows decouple the resonance-free metal granulate filled MDF-chassis from surface. The subsequently benefits from a wonderfully resonance-free, heavy platter, that runs ultra-silently on an inverted ceramic ball bearing with magnetic suspension and is also TPE damped. The new 10" single-pivot tonearm is a genuine Pro-Ject design. With its wide range of adjustment possibilities and the choice of adequate counterweights, nearly all cartridges can be mounted. Signature 10 is an audiophile marvel, that represents our championship in precision engineering and our deep love for music! 3 different luxurious high gloss finish options are available: mahogany, pianoblack and olive.
