Machine Screw x 16

Placement and Maintenance

Your Terrace End Table is designed for indoor use on level floors. Clean wood veneer and steel parts with a moist cloth and clean glass with glass cleaner.

Terrace is engineered for easy assembly. Carefully follow this procedure to prevent any damage. Do not use power tools for assembly of this product.

Step 1

Unpack and identify the parts listed below. The assembly workspace should be a non-marring surface such as carpet. For missing hardware pieces, contact BDI Customer Service at: customerservice@bdiusa.com.

For all other concerns, please contact your BDI retailer.

Step 2 - Attach Legs

With one hand, carefully position the **wood panel A1** on edge. With other hand, slide **1 leg A2** into a notch on the bottom of **wood panel A1** aligning the attachment plate with the corresponding recessed area. Attach the leg with **4 screws H1** using **hex wrench T2**. Attach the other 3 legs.

Step 3 Adjust Levelers / Place the Glass Top

With help from another person, place your Terrace Console on its feet. Position your table and check to make sure it is level. Your Terrace Console Table comes with **adjustable levelers** under each foot. If necessary, dial out one or more of the levelers to stabilize the table. Place the **glass top** onto the top of the legs and align all 4 edges of the **glass top** with the **wood panel**.
